Who we are

Introduction to ASA Group

Our professionals at our Japan and Singapore offices collaborate to provide a seamless service from initial advisory and closing to interim reporting and dissolution. In a constantly changing and borderless global economy, we will support you every step of the way.

ASA Group is one of the largest fund administrators for international clients in Japan. Our wealth of knowledge in finance and real estate enables us to provide a comprehensive range of services. Our professionals include licensed practitioners in accounting, tax and real estate securitization.

We have English-speaking employees on many of our teams which ensures all initial and ongoing matters are communicated and resolved effectively.

Our advantage is rooted in our practical understanding of both the tangible and intangible aspects of finance, real estate, and back-office functions necessary for your success in Japan.

Our mission is to provide flexible and timely fund administration, tax, and accounting services to both Funds and Corporations.

We also understand your concerns regarding information security. To protect your information assets, our strict internal controls and organized workflows prevent fraud and minimize error. To ensure personal and client data is protected and well managed, in February 2006, we were one of the first fund administrators to obtain the global certification for information security management system [ISO/IEC27001:2005].

Group Philosophy

We help accelerate our clients' businesses by delivering information with accuracy, speed, and consistency. This is the value that ASA Group brings.

In 1999, we began our journey as an accounting firm that provides administration for investment fund vehicles.

Today, our services have expanded to include administration and advisory for asset managers, property managers, fund managers, and REIT management firms.

Our services are continuously evolving. In 2024, we are developing new IT models and workflows to deliver streamlined investor reporting of investment assets.

To allow our clients to focus on growing investment asset values and providing innovative solutions for investors, ASA Group helps alleviate the labor shortage in the market, automate processes, and simplify workflows.

With our vast expertise and abundant information gained through the years, we assist our clients to improve ROI, facilitate investment opportunities, and allow the world's capital to flow smoothly.

We strongly believe these actions will lead to a more prosperous and vibrant world.

Our Purpose

In an uncertain world,
ASA Group assists in protecting the world's future assets.
We are committed to helping facilitate investments to solve society's
biggest challenges.

Our clients include retirement and insurance funds that are responsible for managing our future assets, startups and SMEs that develop cutting edge technology and services, and impact funds that tackle the challenges of business succession for SMEs.

To serve such funds, we rely on a robust foundation built upon our people's expertise,
IT prowess, and vast information.

Our employees are the bedrock of everything we do.

We equip our employees with flexible workstyles and offer various career paths to become leading professionals, committed to making an impactful change in the world.
